

National Educator

Patty Holley

Patty began quilting in 2000 when her husband was stationed in Germany during military service. Her early projects were hand quilted, and took a long time to finish. As she and her husband continued to relocate to new duty stations, she continued to quilt, and eventually landed in Arizona. After leaving her teaching career, Patty started working at her local quilt shop, a Handi Quilter retailer.

While working at the shop, Patty was able to see the awesome customer service that Handi Quilter provides on both the consumer and retail side, and she is proud to be a Handi Quilter Educator.

Patty is a member of her local quilt guild and has entered several of her quilts in their shows. Patty thoroughly enjoys quilting on her HQ Avanté®, with Pro-Stitcher®. She and her husband have two grown children and two grandsons. When she isn't quilting, she enjoys traveling, reading and going to movies.
